

Asgrow® Brand Soybeans AG4130 Brand

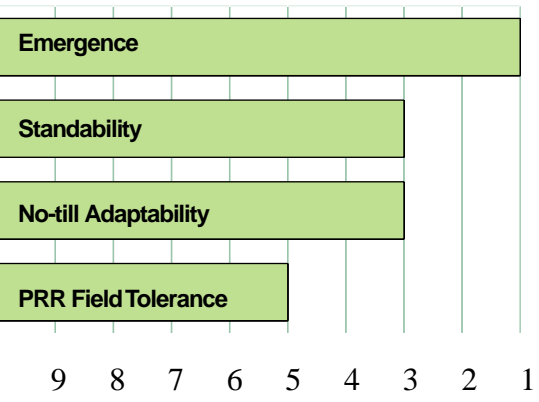

Asgrow® AG4130 brand is an early group IV Genuity™ Roundup Ready 2 Yield® soybean. AG4130 brand soybean offers outstanding yield potential with SCN resistance and good Phytophthora field tolerance.

Product Characteristics

Category	Characteristic	Value
MANAGEMENT	Maturity Group	4
	Relative Maturity	4.1
	Herbicide Tolerant Trait	Gen-RR2Y
	Processor Preferred+	-
	Variety Name	A1016274
	Plant Type	MB
	Growth Habit	I
	Flower Color	P
	Pubescence Color	G
	P L A N T DESCRIPTION	Hilum Color
Pod Wall Color		TN
Plant Height (in.)		37
Approx. Size (Seeds/Lb.)		-
Protein Content ¹ 13%		40.4
Oil Content ¹ 13%		21.8
Emergence		1
Standability		3
No-till Adaptability		3
Iron Chlorosis		-
PRODUCTION	Soybean Cyst Nematode	R3
	PRR Resistance	Susc.
	PRR Field Tolerance	5
	White Mold	6
	Brown Stem Rot	-
	Sudden Death Syndrome	6
	Southern Stem Canker	7*
	Frogeye Leaf Spot	5
	Aerial Blight	-
	Southern Root Knot (<i>M. incognita</i>)	S
SENSITIVITY	Chloride Sensitivity	-
	Propanil Sensitivity	-

Based on Asgrow-conducted trials. Relative to other Asgrow brand products.
Rating Scale: 1=Excellent, 9=Poor.
Tolerance ratings refer to PRR races not covered by specific PRR resistant genes.

AG4130 Brand EARLY IV

Key Strengths

- Strong performance in key MG IV growing regions
- Resistance to SCN race 3 and good Phytophthora field tolerance
- Medium tall, medium bushy plant type that responds to different management systems

Management Tips

- Limited data shows southern stem canker susceptibility; consider management options to mitigate this risk

Asgrow® is a trademark of Monsanto Technology LLC.

Patented germplasm is licensed only to grow a single commercial crop of harvested material for use or sale for food, feed, processing or fiber. No license is granted for subsequent generations of seed or plants for any purpose.

Asgrow Brand Soybean Legend

Rating Scale:

- 1 = Excellent
- 9 = Poor
- * = Preliminary Screening
- NEW** = '06 Elites
- = Not Available

A rating of "1" in standability is a soybean product with excellent standability. A rating of "1" in brown stem rot is a product with excellent tolerance to brown stem rot.

PP = Processor Preferred® 

Herbicide Tolerant Traits:

- RR¹ = Roundup Ready®
- Blank = None
- RR¹/STS = Stacked Roundup Ready and STS®

¹Seeds containing the Roundup Ready trait are protected under numerous United States Patents, including Patent No. 5,352,605. It is unlawful to save Roundup Ready Soybeans for planting or transfer to others for use as planting seed.

Germplasm Patent:

- P = Pending
- G = Granted
- N = None

Patented germplasm is licensed only to grow a single commercial crop of harvested material for use or sale for food, feed, processing or fiber. No license is granted for subsequent generations of seed or plants for any purpose.

Soybean Cyst Nematode:

- S = Susceptible
- R = Resistance
- MR = Moderate Resistance
- ^ = University Data Only
- # = Race 1, 3, 5, 9 or 14

A recent publication suggests that soybean cyst nematode populations should be described by a different method called HG type, instead of races. The Race 3 population used in our evaluations would be equivalent to "HG Type 0" and the Race 14 population would be equivalent to "HG Type 1.3" under the direction of the paper.

Phytophthora Gene Specific Resistance:

Susc. = Susceptible
 Rps1^a denotes resistance to Races 1, 2, 10, 11, 13-18, 24, 26, 27, 31, 32 & 36.
 Rps1^c denotes resistance to Races 1-3, 6-11, 13, 15, 17, 21, 23, 24, 26, 28-30, 32, 34 & 36.
 Rps1^k denotes resistance to Races 1-11, 13-15, 17, 18, 21-24, 26, 36 & 37.
 Rps2 denotes resistance to Races 1-5, 9-29, 33, 34, 36-39. Rps3^a denotes resistance to Races 1-5, 8, 9, 11, 13, 14, 16, 18, 23, 25, 28, 29 & 31-35.
 Rps6 denotes resistance to Races 1-4, 10, 12, 14-16, 18-21 & 25.
 Rps7 denotes resistance to Races 2, 12, 16, 18, 19, 33, 35 & 36.

Phytophthora Field Tolerance:

Reaction to Phytophthora sojae Race 25 for commercial genes Rps1^a, Rps1^c, Rps1^k and Rps7.
 Reaction to Phytophthora sojae Race 30 for commercial genes Rps2, Rps3^a and Rps6.

Southern Root Knot

- MR = Moderate Resistance
- S = Susceptible
- MS = Moderately Susceptible

Flower Color

- P = Purple
- W = White

Pubescence

- G = Gray
- T = Tawny
- LT = Light Tawny

Hilum Color

- BL = Black
- G = Gray
- IB = Imperfect Black
- IY = Imperfect Yellow
- BR = Brown
- BF = Buff
- Y = Yellow

Pod Wall Color

- BR = Brown
- TN = Tan

Plant Type

- Th = Thin
- M = Medium
- B = Bushy

Protein and Oil Content

Percentages are recorded on a 13% moisture basis. Protein and oil percentages represent an average of multiple observations. Actual values vary with environmental conditions, geographical area and management practices.

*Processor Preferred® indicates that these soybean products have been offered a premium for their seed composition from specific grain buyers.

Warranty and Disclaimer of Warranties

Asgrow Seed Company LLC and DeKalb Genetics Corporation warrant that the products they sell will be labeled as required by law and that they will conform to the label description. ASGROW, DEKALB AND SELLER MAKE NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE. There are no guarantees of crop yield or freedom from seed-borne disease. Any recommendations for use of these products or materials or apparatus in connection therewith are based upon Asgrow's or DEKALB's or Seller's best judgement, but there is no warranty of results to be obtained in connection therewith.

Always Read and Follow Label Directions for All Products

The agronomic ratings stated in the product agronomic charts were developed from Asgrow's and DEKALB's internally conducted trials, which utilize commonly accepted methodology. These ratings can be used for comparative purposes between established and newly released products. They may not reflect total comparative performance. Actual performance may vary based on a number of factors, including without limiting the prevalence of the disease-causing organism or insect pest and environmental conditions. Product choice should be based on all performance information and not on pest reaction alone.

Always Read and Follow Label Directions for All Products

Roundup Ready[®] crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup[®] agricultural herbicides. Roundup[®] agricultural herbicides will kill crops that are not tolerant to glyphosate. Roundup Ready Corn 2 technology is covered under one or more of the following U.S. Patent Nos.: 4,940,835; 5,188,642; 5,359,142; 5,196,525; 5,322,938; 5,164,316; 5,352,605; 5,554,798; 5,593,874; 5,859,347; 5,424,412; 5,804,425; 5,641,876; 5,717,084; 5,728,925; 6,083,878; 6,025,545; 6,825,400 and RE39,247.

Roundup Ready soybeans technology is covered under one or more of the following U.S. Patent Nos.: 4,940,835; 5,188,642; 5,352,605; 5,530,196; 5,717,084; 5,728,925; 5,804,425 and RE39,247.

YieldGard Corn Borer technology is covered under one or more of the following U.S. Patent Nos.: 5,484,956; 5,352,605; 5,424,412; 5,859,347; 5,593,874; 6,180,774; 6,331,665 and 7,064,248.

YieldGard Rootworm technology is covered under one or more of the following U.S. Patent Nos.: 5,110,732; 5,023,179; 6,174,724; 5,484,956; 5,352,605; 6,331,665; 6,063,597; 6,501,009; 6,620,988; 6,642,030; 7,064,248, and RE39,580.

YieldGard Plus technology is covered under one or more of the following U.S. Patent Nos.: 5,023,179; 5,110,732; 5,352,605; 5,484,956; 5,424,412; 5,859,347; 5,593,874; 6,063,597; 6,174,724; 6,180,774; 6,331,665; 6,501,009; 6,620,988; 6,642,030; 7,064,248, and RE39,580.

The purchase/bailment/transfer of these seeds conveys no license under said patents to use these seeds or perform any of the methods covered by these patents. A license must first be obtained before these seeds can be used in any way. See your seed dealer to sign a Monsanto Technology/Stewardship Agreement ("MTA"). Progeny of these seeds cannot be cleaned or used as planting seed or transferred to others for planting. These seeds may only be offered for sale and distribution by authorized seed companies or their dealers. Before opening a bag of seed, be sure you read, understand and accept the stewardship requirements for the biotechnology traits expressed in the seed as set forth in the Monsanto Technology/Stewardship Agreement that you signed. By opening and using the bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.
