

MORE FARMERS HAVE MORE CONFIDENCE IN THEIR SEED CHOICE

Farmers like Rick Van Gilder are confident in their decision to plant the DEKALB® brand for its superior performance, advanced technology and proven yield advantage.

Three reasons why more farmers are planting more DEKALB.

VAN GILDER FARMS

“Without a doubt, DEKALB® corn provides me with a yield advantage year after year. There’s no question about it.”

Rick Van Gilder has been farming for 40 years and steadily increased his DEKALB® corn acres for the past eight years because “it outyields the competition time after time.” Today, he plants nearly 100 percent of his corn acres to DEKALB.

“My DEKALB yields last year were excellent – in excess of 200 bushels,” Rick says. “It beat all my competing brands and even outyielded some by 10-20 bushels. I am expecting the same great results this year.”

“At the end of the day, I’m looking for whatever gives me more dollars per acre, and DEKALB gives me that advantage.”

DEKALB is proud to be a leading provider of Genuity™ technology traits. Visit DEKALB.com.

Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.
